This online clinical tutorial is intended for Australian Healthcare Professionals Only

This online clinical tutorial is intended to give general information on treatment considerations based on recent data and individual case studies. Nothing in this presentation should be construed as medical advice since each patient is different. The presenters are providing their own personal experiences. However, each patient is an individual case. You should use your own medical judgment to choose the appropriate treatment for each patient.

Sanofi is bound by the Australian Privacy Principles and will store your personal details securely and to the extent required by the Privacy Act 1988 (Cth). Any Personal Information you provide will be used only for purposes related to that activity. You have the right to access, update or correct your Personal Information, and you can opt out of receiving correspondence from us at any time. To find out how and for further information on our Privacy Policy, please visit www.sanofi.com.au/en/privacy-policy
